

# LUCITE EMBEDMENTS & TOMBSTONES

Clearfloat pioneered the first Lucite tombstone in the early 1960's and since then has continued to set the industry standard for quality and innovation. The images shown on this web site represent the wide variety of embedments that we can manufacture. And, remember we can produce just about anything you can imagine.

# SERVICE

# QUALITY

We can custom make virtually any two dimensional shape or size so your lucite embedment will reflect the nature of the individual project that you are working on. Each lucite creation will be custom designed and manufactured to your specifications.
